

VANSHIKA VERMA

vanshieverma@gmail.com | +91 7719762141 | github.com/vanshieverma | linkedin.com/in/vanshieverma

SKILLS

- Languages & Frameworks: Python, C#, ASP.NET Core, FastAPI, Entity Framework, ReactJS
- AI / Generative AI: LLM Integration, Prompt Engineering, AI Workflow Automation, Voicebot Development, NLP, Model Training, Data Annotation & Curation
- APIs & Architecture: REST API Design, GraphQL
- Databases: SQL Server, PostgreSQL, MongoDB, RavenDB
- Tools & Platforms: Twilio, OCR, Git

EXPERIENCE

Generative AI Analyst Jun 2026 - Present

WeLoGlobal

- Write and refine prompts, model responses, and labeled datasets used to train and evaluate LLMs
- Review and quality-check labeling work coming in from third-party vendor teams, flagging inconsistencies before handoff
- Coach new team members on prompt-writing and LLM annotation standards
- Evaluate GenAI model outputs for accuracy and tone, iterating on prompts to fix recurring failure patterns

Software Engineer Mar 2025 - May 2026

BharatLogic Advisory LLP, Mohali | C#, ASP.NET Core, Python, FastAPI

- Developed scalable REST APIs and full-stack applications using ASP.NET Core, FastAPI, and Python
- Built AI-integrated features including LLM automation, voicebot workflows, and NLP-based data processing pipelines
- Designed and deployed an outbound voicebot/calling agent with dynamic call scripting, combining Python, Twilio telephony, and LLM-generated responses
- Designed dashboards, CRM integrations, and backend services using SQL Server, PostgreSQL, and MongoDB

Graduate Engineer Trainee Aug 2024 - Mar 2025

BharatLogic Advisory LLP, Mohali | C#, ASP.NET Core

- Trained in C#, .NET, Entity Framework, and GraphQL through hands-on projects
- Assisted in API development, database schema design, testing, and bug fixing
- Supported feature implementation and backend enhancements in live applications

AI Tutor - Data Annotation & Model Training May 2025 - Nov 2025

xAI

- Provided accurate input and labels for AI/ML projects using proprietary annotation software
- Delivered high-quality curated datasets, ensuring consistency and reliability for model training
- Collaborated with technical staff to support training of new AI tasks and cutting-edge initiatives
- Contributed to refining Generative AI models through writing and evaluation assignments

ACADEMIC & PERSONAL PROJECTS

AI Voicebot - Outbound Calling Agent | Python, Twilio, LLMs

- Built an AI-powered outbound voice calling agent with dynamic, LLM-driven call scripting and real-time speech-to-text
- Implemented secure XML-based call scripting and Twilio telephony automation for outbound campaigns
- Integrated CRM syncing, automated call handling, transcription, and intelligent conversation logic

Sales Employee Field Tracking System | Python

- Built a field-employee tracking system with real-time GPS location tracking and attendance logging
- Developed an admin dashboard for monitoring live employee locations, attendance, and leave management
- Implemented automated notifications/alerts for check-in, check-out, and leave status updates

KYC System | Python, Vue.js

- Built end-to-end KYC platform for US driver licenses with role-based access, document OCR, and barcode scanning
- Implemented liveness detection and selfie-based face matching for identity validation
- Developed admin dashboards, approval workflows, and secure data processing pipelines

Online Test Portal | .NET Blazor

- Developed a secure full-stack online examination system with authentication and role management
- Implemented timed tests, automated evaluation, and result analytics dashboards
- Built an admin panel for exam creation, monitoring, and reporting

AI Recipe Generator | MERN Stack

- Built a system that validates user-provided ingredients and suggests personalized recipes
- Integrated image recognition to identify food items from photos and recommend suitable recipes
- Used NLP and Generative AI models to generate recipe instructions and variations

TRAININGS & INTERNSHIPS

- Android App Development Training | Internshala Trainings (Jul 2023) - Java, Kotlin, XML
- Android Developer Virtual Internship | AICTE & Google (Nov 2023) - Java, Kotlin, XML
- AI & ML Virtual Internship | AICTE & Google (May 2024)

EDUCATION

- BTech, Computer Science & Engineering | Gulzar Group of Institutes - CGPA: 8.5 | 2025
- XII (PSEB) | Khalsa Girls Sen Sec School - 88% | 2021
- X (PSEB) | Decent Public School - 92% | 2019
